Problem Statement

- Myanmar military took over power from civilian government on **February 1st 2021**. The public protested massively against the military coup in Myanmar. **Anti-military dictatorship Movements** have emerged in all the villages and townships in Burma Area and city f ethnic areas. Employees of Education and Health Departments in Bureaucracy have joined the Civil Disobedience Movement. Myanmar military broke down terror to prevent massive protests. The public was brutally arrested, and they were brutally killed at the Military Intelligence Office. Myanmar people tried to defend themselves **by armed revolution**. There are wars happening everywhere in Myanmar. There are serious wars in Kayin and Kayah states **at the Thai-Myanmar border**.

- Many citizens from the border regions are fleeing due to the **attack by the Myanmar military with military airplanes and helicopters** in December 2021. Refugee citizens in the border are being destroyed and livelihoods are being tight. Some are killed by war and die. Myanmar's political crisis is threatening the daily livelihood and life of basic citizens. Specifically, it happens in the areas where ethnic armed groups have taken their base and in the Thai-Myanmar border. Many Myanmar citizens who sneak into Thailand are struggling.

Activities (6) To contribute real life – real stories about Refugees in Public Media and Online Media

Evidence Based Article and Stories

- Research Reports focus on academic and policies environment.
- But article, stories and essays focus on general public and audiences.
- I would like to contribute evidence base articles and stories about the conditions of livelihood of the refugees in border areas.
- Media mobilization is effective for awareness and the take actions on the crisis areas.
- I want to support to know and understanding political and armed groups leaders about the surviving life of lower people in crisis areas.
- I would like to create stories and essays to support peace

I can write a little bit about Real Life
- Real Stories to spread the
humanitarian spirit in Burma and
Myanmar
